Description: Learn about ways to teach students to be informationally literate in our fast paced network economy, including how to create "template files" (partially created student documents) for integrated technology lessons and hotlists of internet websites. Strategies for quickly locating educational resources on the internet will be demonstrated and practiced, and a wide variety of student projects integrating technology use will be demonstrated.

CLASS OUTLINE

- 8:30 - 9:00 Overview of Technology Integration
 - If you don't have the vision, you can't see the picture
 - ACOT Phases
 - Questions are key - Assess the Process
 - File Saving: **LOCATION and NAME**

- 9:00 - 10:00 Web Created Lessons (Part 1)
 - Internet Hotlist / Scavenger Hunt
 - Tips for locating websites

- 10:00 - 10:15 Break

- 10:15 - 11:30 Web Created Lessons (Part 2)
 - Creating / Using Template Files
 - Printed Product (brochure, newspaper, report with graphics)
 - Student Created Presentations
